

ORGANIC BABY SWEET POTATOES

3-LB ORGANIC BABY SWEET POTATOES

Our organic farmers work with natural systems to create and maintain a healthy environment in which to grow food crops. EarthFresh has exclusive sweet potato varieties that grow very well in organic conditions – looking and tasting better than traditional varieties.

Sweet potatoes are root vegetables with earthy undertones and a wealth of nutrients, including beta carotene, a powerful antioxidant. They are longer and much sweeter than regular potatoes. Due to their small size, our organic baby sweet potatoes are quick-cooking.
